

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. PUBLISHERS' PREFACE.

THE objects of the present work are: First, to satisfy an imperious public curiosity, which has thus far been only partially gratified by the public journals. Secondly, to supply the means whereby our citizens can ascertain, so far as official records permit, whether their neighbors perform their duty in bearing their share of the public burdens; and lastly, to furnish trustworthy statistics, to which the future legislator or statesman may refer with confidence, in the revisals of the Revenue Laws, which will be inevitable hereafter. It is true that the contents of this book will form but a small portion of the materials that will have to be accumulated on this subject, but if all the Revenue Districts in the country are gone over and the results recorded with the same care as is here done, the government will possess an immense mass of correct information upon which to base its action.

Income Tax, like so many other national burdens, is the offspring of war in both the countries in which it is made the source of revenue. William Pitt appealed to this form of taxation first in 1798, when the national debt of England began to assume its present colossal proportions. As a matter of course the Income Tax was very unpopular, and it was repealed in 1802, only to be re-enacted toward the close of the same year. PUBLISHERS' PREFACE.

THE objects of the present work are: First, to satisfy an imperious public curiosity, which has thus far been only partially gratified by the public journals. Secondly, to supply the means whereby our citizens can ascertain, so far as official records permit, whether their neighbors perform their duty in bearing their share of the public burdens; and lastly, to furnish trustworthy statistics, to which the future legislator or statesman may refer with confidence, in the revisals of the Revenue Laws, which will be inevitable hereafter. It is true that the contents of this book will form but a small portion of the materials that will have to be accumulated on this subject, but if all the Revenue Districts in the country are gone over and the results recorded with the same care as is here done, the government will possess an immense mass of correct information upon which to base its action.

Income Tax, like so many other national burdens, is the offspring of war in both the countries in which it is made the source of revenue. William Pitt appealed to this form of taxation first in 1798, when the national debt of England began to assume its present colossal proportions. As a matter of course the Income Tax was very unpopular, and it was repealed in 1802, only to be re-enacted toward the close of the same year. The rate at first imposed was ten per cent. on incomes of £200 and upwards and less by 1d. in the pound for every ten pounds below that sum, until it reached incomes of £60, under which there was no taxation. The year 1803 saw the

terms reduced, but in 1806 they were again ten per cent. on all incomes above £150, the graduated rates reaching down to incomes of £50, below which all professional incomes were exempted; but incomes derived from invested securities, rents, &c., paid the smallest rates. After this, in the next year, the rates were moderated, and subsequent to the complete defeat of Napoleon, and the arrangement of a general peace, the tax, never having ceased to be unpopular, was (1816) abolished.

Twenty-six years elapsed before a tax on incomes again became necessary, Sir Robert Peel embracing it in the reformed system of taxation which he brought forward in 1842. At that time the income tax was to last but three years, but alas for the tax-payer of Great Britain! at the end of this term it was continued for three years more, at the end of this period for three more, and to this day it is the fruitful theme of jests in Punch, communications to the Times, and of letters with small remittances from conscience-stricken delinquents to the Chancellor of the Exchequer. The highest income tax paid by the British subject since 1816 was during the Crimean war, when it reached 6⅔ per cent. on incomes over £150, and a little less than 3 per cent. on those between £100 and £150. After that war it was reduced to $2\frac{11}{12}$ and $2\frac{1}{12}$ per cent. respectively. It is now, with some special exceptions, 2½ per cent. on all incomes of £100 or upward, with this material proviso, that on incomes between £100 and £200, an allowance of £60 is made before calculating the tax. Incomes less than £100 pay no tax.

It will be seen from these particulars that our Congress has been greatly indebted to the discoveries already made upon the subject of taxation on the other side of the water. Our rate is a little more than that in the British system at present, our exemption is twice as large, and universal, instead of partial in its application; or in other words, while our system is easier to comprehend, the English plan is a little more careful in adapting the burden to the back that has to bear it.

For the interesting facts about the wealth of New York, brought out by our own system of taxation on incomes, we refer the reader to the table below:

DISTRICTS.	No. of Incomes below $1,000.	Incomes between $1,000 and $5,000.	$5,000 to $10,000.	$10,000 to $20,000.	$20,000 to $50,000.	$50,000 to $100,000.	$100,000 to $500,000.	Upwards of $500,000.	Total Number.	Aggregate Amount of Incomes.

The largest income returned is $1,843,637, and the smallest $1, and, as a matter of course, the largest war tax in 1863 was $92,181 85, and the smallest 5 cents. It must be carefully noted, too, that the large revenue here spoken of was mainly derived from business, and not from rents or other investments. This is true of many of the larger incomes recorded in the following pages, and must be borne in mind when comparing the *taxability* of the people of this country as compared with those of Europe, where most of the larger incomes are derived from rents or government securities, the results of labor or speculation capitalized centuries ago. Indeed, the Income Record here is not an absolute test of the wealth of a man, for many of our richer fellow-citizens have their means in stock companies of various kinds, the income tax upon whose dividends is paid by the companies themselves, and does not, therefore, appear in these pages.

New York is estimated to contain at the present time about 160,000 heads of families. It appears, then, that about one in eight has a taxable income, and only one in sixteen has a taxable income of more than $1,000.

It has been suggested that, as many of the residents of neighboring cities and towns do business and own property in New York, the aggregate tax paid in the metropolis is much less than it actually contributes to the national treasury, but we have no doubt that our city receives from the country at large its full share of favors of this kind, and hence this record will show with tolerable fidelity what New York pays out of its own earnings toward the national expenses.

As to frauds upon the Revenue, there are no reliable statistics. In England, it is estimated by an able writer on taxation that the government is defrauded of full one third of the taxes due it. We do not think that in this country it will amount to more than one tenth and much of that results from ignorance rather than a desire to defraud.

The income records of future years as compared with that of 1863 will form one of the best standards by which to measure the growing prosperity of New York, and the publishers flatter themselves that the labor involved in the compilation of these returns will be more highly appreciated with every coming year.

CHICKERING & SONS,

(*Established by Jonas Chickering in* 1823.)

MANUFACTURERS OF

GRAND,
SQUARE, AND
UPRIGHT PIANO-FORTES.

Messrs. C. & Sons have been awarded

FORTY PRIZE MEDALS,

over all competitors, for the superiority of their manufacture. Their surpassing excellence has caused them to be selected by the greatest European Pianists who have visited this country, and the most eminent resident Pianists, for their public performances and private use. The most flattering testimonials have been received from

GOTTSCHALK,	S. THALBERG,	M. STRAKOSCH,
LEO. DE MEYER,	J. BURKE,	JULLIEN,
ALFRED JAELL,	GUSTAV SATTER,	ARTHUR NAPOLEON
W. SCHARFENBERG,	J. N. PYCHOWSKI,	R. GOLDBECK,
R. HOFFMAN,	J. BENEDICT,	E. MUZIO,

GEO. W. WARREN, MME. LOUISE ABEL, and many others.

Letter from Thalberg.

Since my arrival in America I have constantly used the PIANOS of Messrs. CHICKERING & SONS, and I can only repeat that which I have often said before: The instruments are the best I have seen in the United States, and will compare favorably with any I have ever known.

S. THALBERG.

L. M. Gottschalk has used the Chickering Pianos at all his Concerts for over *ten years*. Throughout the United States and the island of Cuba he has used no other instruments. The result of his practical experience of these Pianos he has expressed in a letter to Messrs. C. & Sons, concluding with the following flattering remarks:

Extract from Gottschalk's Letter to Chickering & Sons.

"Harmonious roundness of tone, force in the base notes, limpidity in the upper notes, equality throughout all the registers, *singing quality* in the middle tones, and, above all, an astonishing prolongation of sound, without its becoming confused, were signs of an artistic progress which I at once discerned on playing the new instruments for the first time. Soon after, when I had been obliged to transport your piano several hundred miles by railroad, and play upon them without the time to have them retuned, I was still more surprised at the rare solidity of their construction by finding them in as perfect tune as when they started. Furthermore, when giving concerts unassisted, and playing fifteen or eighteen pieces in succession, I have been capable of appreciating, by the comparatively trifling fatigue which I experienced, the precision and promptness of action which characterized your instruments.

"Accept, gentlemen, my sincere congratulations. Henceforth the United States may advantageously compete with Europe in the construction of pianos; and it is not the least of all our commercial triumphs that you have succeeded in matching and surpassing the efforts of the Erards, the Pleyels, the Collards, and the Broadwoods.

Truly yours,

December, 1862. L. M. GOTTSCHALK."

and contains all the Editorial articles not merely local in character; Literary Reviews and Art Criticisms; Letters from our large corps of war correspondents; Foreign and Domestic Letters; Special and Associated Press Telegraphic Dispatches; a careful and complete Summary of Foreign and Domestic News; Exclusive Reports of the Proceedings of the Farmers' Club of the American Institute; Talks about Fruit, and other Horticultural and Agricultural Information; Stock, Financial, Cattle, Dry Goods, and General Market Reports, which are published in THE DAILY TRIBUNE. It frequently contains articles which the great pressure of advertisements will not permit us to put in the Daily Edition. THE SEMI-WEEKLY TRIBUNE also gives, in the course of a year, THREE or FOUR of the

BEST AND LATEST POPULAR NOVELS

by living authors. The cost of these alone, if bought in book form, would be from six to eight dollars. If purchased in the ENGLISH MAGAZINES, from which they are carefully selected, the cost would be three or four times that sum. Nowhere else can so much current intelligence and permanent literary matter be had at so cheap a rate as in THE SEMI-WEEKLY TRIBUNE. Those who believe in the principles and approve of the character of THE TRIBUNE can increase its power and influence by joining with their neighbors in forming clubs to subscribe for THE SEMI-WEEKLY Edition. It will in that way be supplied to them at the lowest price for which such a paper can be printed. Persons residing in the city can find no more valuable journal to send to their country friends.

BROWN'S
PATENT BABY-TENDER.

THE BABY-TENDER

is the most complete and useful Nursery Invention of the age. From a charming Spring Cradle it is easily and almost instantly converted into either of the following articles, namely:

A RECLINING COUCH, for children too young to sit alone;
A SPRING CHAIR;
A BABY-WALKER, attractive and useful;
AN OTTOMAN, for the parlor or dining-room;
A HOBBY-HORSE, for children under five years;
A BABY-JUMPER, for security, exercise, and amusement, (see cut;)
A BABY-HORSE; or, when elevated,
A HIGH CHAIR, for the table;
A NURSERY CHAIR.

The motion of the Baby-tender, which is VERTICAL and NOISELESS, is derived from a Spira Spring in the Ottoman; and, unlike that of the common Rocking or Swinging Cradle, is in the highest degree healthy, delightful, and soothing. It RELIEVES THE MOTHER from the hardest part of baby-tending.

PRICES FROM $25 to $50.

AGENTS WANTED.

TERMS CASH.

When packed the Baby-tender alone measures seven cubic feet, and weighs about one hundred pounds. The horse adds about one fourth to the weight and measurement. Call and examine, or send for Descriptive Circular.

TESTIMONIAL.

HOME FOR THE FRIENDLESS, 29 East Twenty-ninth street,
NEW YORK, February 3, 1864.

To all whom it may concern:

Brown's Patent Baby-tender has been in use in my family for more than two years, and I do not hesitate to say that *if mothers generally knew its great value in the care and management of children, they would willingly deny themselves one meal a day (if necessary) to procure it.*

It is *entirely safe*, strong, and durable, possesses a peculiarly delightful, soothing, and healthy motion, and is, altogether, the most complete and desirable article of the kind I have ever seen. Children, especially in infancy and in sickness, *prefer it to the arms of mother or nurse.* I cheerfully recommend it to mothers, as well as to all having the care of infants and children under five years, whether *with or without* hired nurses.

PAIN IN THE SIDE, CHEST, LIMBS, & SUDDEN FLUSHES OF HEAT, BURNING IN THE FLESH.

Dr. RADWAY'S PILLS

Are composed of extracts of Roots, Herbs, Plants, Gums, and Balsams, prepared in vacuo. Nothing but the active and positive curative properties of medicinal plants enter into their composition. Being highly concentrated, two to four of Radway's Pills produce a more thorough evacuation from the bowels, and exercise a more healthful influence on the Liver, Spleen, Kidneys, &c., than eight to ten of any other purgative or alterative pills in general use. They have in hundreds of cases secured the desired discharge from the bowels after Croton Oil, Harlem Oil, Elaterium, Podophillon, and other powerful Cathartics have been used unsuccessfully. They can be taken on all occasions with the positive assurance of success.

THE LIVER.

Many of the disorders of the Stomach, Bowels, Kidneys, and other glands of the system, are caused by derangement in the action of the Liver. Headaches, Nervousness, Dyspepsia, Hysterics, frequently owe their presence to a disordered liver. What a blessing, then, to suffering humanity, are Radway's Regulating Pills, (called Regulators.)

These Pills are the most safe, effectual, and speedy Corrector and Regulators of the Liver in use, and are the only Medicine known to the world that possesses the wonderful power of imparting *nutriment* to the diseased system while it is undergoing medication. In all cases of Liver Difficulties, Dyspepsia, Costiveness, Biliousness, Headache, Neuralgia, Hysterics, the patient taking these pills derives a nourishing principle from their use that cannot be obtained from ordinary food. In all cases of Indigestion, where the torpid state of the Liver interrupts the process of Digestion, Radway's Regulating Pills quickly restore each and every organ to its natural tone, vigor, health, and duty.

DR. RADWAY'S PILLS

ARE SOLD BY DRUGGISTS AT 25c. PER BOX.

RADWAY'S READY RELIEF.

Immense success has been achieved by rubbing the spine with Radway's Ready Relief. By this means signal cures are daily effected in Rheumatic, Neuralgic, and Spinal Affections, and also in diseases of the Bladder, Kidneys, Uretha, and in complaints of women: Leuchorrhea, weakening discharges, Irregularities, Suppressions, Retentions, Hysterics, Prolapsus Uteri, or Falling of the Womb. It secures to the people a quick, pleasant, and safe mode of cure, and renders taking of unpalatable and uncertain physic unnecessary.

Professor Reid and many other eminent physicians claim that the application of Radway's Ready Relief to the spine, and the taking of from four to six of Radway's Pills every night, will cure Dyspepsia, Indigestion, Jaundice, and diseases induced by the use of mercury. We have known the worst cases of Rheumatism, Paralysis, Sciatica, Gout, Lumbago, Nodes, &c., to vanish after a few thorough rubbings with the Relief, and a few doses of Pills, and we know that all Acute, Inflammatory, Malarious, and Contagious diseases will yield to this treament.

In cases of Small-pox these medicines will be found a sure preventive, if used when you are seized with the premonitory symptoms.

In attacks of Bilious Fever, Fever and Ague, Typhoid, Scarlet, Yellow, and other Malignant Fevers, Erysipelas, and Pneumonia, Radway's Ready Relief and Pills are positive curatives.

THEIR INDICATIONS OF CURE.

The applications of Radway's Ready Relief supplies the deficiency of heathful Electricity (caused by the influence of the malaria or poison of the disease) to the nervous system, and withdraws to the surface the latent humors of diseases which are expelled through the pores.

Radway's Pills restore the Liver, Bowels, Pancreas, Kidneys, Bladder, and diseased Glands, to the performance of their natural duties. To accomplish these indications in the treatment of disease, under whatever name it may be designated, is all that medicine is expected to do. Inasmuch as the use of these Remedies is sure to produce these healthful results, there is not a shadow of doubt that they will effect a radical cure.

READY RELIEF, AND ITS PROPERTIES.

Radway's Ready Relief is a Counter-irritant, Diffusive Stimulent, Anti-spasmodic, Tonic, Anti acid, Diaphoretic, Nervine, Diuretic, Emollient, Antiseptic.

Dr. Frederick Page, of Mississippi, says that Radway's Ready Relief is the only sure disinfectant known as a preventive of Yellow Fever and Small-pox. In his treatment of Yellow and all other Fevers, he always found it successful.

LOCAL APPLICATION.

For Croup, Sore Throat, Diphtheria, Hoarseness, Asthma, and Difficult Breathing, an application of the Ready Relief to the Throat and Chest will afford immediate relief and in a few hours a cure will be effected.

INJURIES AND ACCIDENTS.

In cases of Strains, Bruises, Wounds, Cuts, Burns, &c., the Relief, if applied to the injured parts, will cure in a short time.

TAKEN INTERNALLY.

There is no remedial agent that will effect a cure so quick in attacks of Diarrhœa, Cholera, Measles, Bilious Cholic, Dysentery, Croup, and Spasms, and all complaints of the Bowels, as Radway's Ready Relief.

ITS CHEAPNESS.

A 50-cent Bottle of Radway's Ready Relief can be used for more purposes, with the positive assurance of doing good, than you can derive from the expenditure of Ten Dollars in ordinary medicines.

Sold by Druggists everywhere.

PROSPECTUS OF THE ILLUSTRATED

PHRENOLOGICAL JOURNAL,

For 1865.

"THE HUMAN FACE DIVINE."

A New System of Physiognomy—Eyes, Ears, Nose, Mouth, Head, Hair, Eyebrows, Hands, Feet, Skin, Complexion, with all "Signs of Character" in

The Phrenological Journal & Life Illustrated.

S. R. WELLS, EDITOR.

OUR PLATFORM.

I. **The Study of Man** Ethnologically, Physiologically, Phrenologically, Physiognomically, and Psychologically, or the Grand Science of Anthropology in its fullest extent.

II. **The Improvement of Man**—Physically, Intellectually, Morally, and Socially, through the use of the means indicated by Science and Revelation.

III. **The Universal Diffusion of Knowledge** in relation to Man in all the affairs of this life, and all the grounds of Hope and Faith in a life to come.

For the promotion of the ends herein specified we propose to examine, discuss, and elucidate in a practical and popular manner the following general and special subjects:

1. **The Natural History of Man**, including descriptions (with portraits) of the different families, races, tribes, and nations, and their manners, customs, religions, and modes of life, according, to the latest discoveries in ETHNOLOGY.

2. **Physiology**, embracing the vital functions of Heart, Lungs, Stomach, and the Uses of the Bones, Muscles, etc.; with suggestions on Dietetics, Exercise, Sleep, Study, Bodily Growth, the Laws of Life, and the promotion of Health, on strictly Hygienic principles.

3. **Phrenology**, including the Brain and Nervous System, the Temperaments and the Laws of Mental Development. Under this head the aid of Anatomy will be invoked to reveal the wonders hidden within the human cranium; the location of the organs will be pointed out, their functions described, and the reader furnished with the key which will open to him the rich treasures of the human mind.

4. **Physiognomy**. Being convinced that there is meaning in every feature, every line, every dimple, we shall point out and explain, on the basis of Physiology and Phrenology, the various "Signs of Character," and reduce Physiognomy, so far as is possible, to a System; making everything so plain and so practical that "he who runs may read."

5. **The Human Soul**: its Nature, Office, and Condition in Life and in Death; Man's Spiritual State, in the Here and in the Hereafter; Man's relations to this Life and to the Life to Come: Seers, Prophets, Interpreters; The conditions for mental illumination and inspiration. The supernatural and the immortal.

6. **Biography**. In connection with Portraits, and practical delineation of Character, we shall continue to give condensed and interesting biographical sketches of our most distinguished men. These are drawn from all classes—the high and the low, the rich and the poor, virtuous and vicious; we deeming it our duty to represent human life in all its phases.

7. **Love, Courtship, and Marriage.** These form a part of the life of every well organized human being. The elements of love are inborn. The object of Courtship is to become acquainted and one of the objects of marriage is to perpetuate the race. Right relations in Wedlock bring the highest earthly happiness. All young people require instruction and direction in the selection of suitable life-companions. Phrenology throws a flood of light on the subject, and we shall fully discuss it in the department of "OUR SOCIAL RELATIONS."

8. **"Best Thoughts."** Under the title of "COMMUNICATIONS," we shall give the "best thoughts of the best writers," American and European, on topics of general interest, which will give variety to the whole. We believe in the "agitation of thought" and are always glad to listen to the best speakers, read the best writers, and study the best thinkers. Travelers will make this their vehicle for descriptions of objects of interest everywhere.

9. **The Choice of Pursuits.** "What to Do," or how to select the Pursuit for which a person is best adapted on Phrenological principles, will be clearly explained; and Poetry; General Literature; the Learned Professions of Law, Medicine, and Divinity; Invention; Mechanics; Agriculture; Manufacturing; Commerce; Mining—in short all the interests of civilized human society, will receive attention.

10. **Miscellaneous.** Churches, Schools, Prisons, Asylums, Hospitals, Reformatories, etc., with modes of Worship, Education, Training, and Treatment, will command our attention. New Books will be candidly noticed, interesting extracts given, and questions of general interest answered, in each number of THE PHRENOLOGICAL JOURNAL for the year 1865.

TERMS.—A new Volume, the 41st, commences with the January Number. Published monthly, in quarto form, at $2 a year in advance. Sample numbers by first post, 20 cents. Supplied by Booksellers and Newsmen everywhere. Please address FOWLER & WELLS, 389 Broadway, New York, U. S. A.
